Cristian Valdez

Cloud Infrastructure & IT Support

Aomori, Japan | cvaldezana@gmail.com | linkedin.com/in/cristian-valdez-203136378 | github.com/cvaldezcomputerer

SUMMARY

American IT professional based in Japan since 2023. Two years of university IT support experience prior to relocating on the JET Programme; currently transitioning back into the tech industry with a focus on cloud infrastructure and technical support roles. Business-level Japanese (JLPT N2).

EXPERIENCE

JET, Japan — Assistant English Teacher
January 2023 – Present

- Teach English at public schools in rural Aomori while working daily in a Japanese-language environment
- Adapt technical and educational content for non-native English speakers across varying proficiency levels

National AJET, Japan — Webmaster (Volunteer)
April 2025 – Present

- Maintain and administer the National AJET WordPress site for a 5,000+ member organization
- Troubleshoot hosting and reliability issues; coordinate technical changes with the AJET board

oRo Miyazaki — Intern (JET Programme Internship)
September 2026 (1 week)

- Wrote a requirements spec, built to it in Python and TypeScript, and presented the result to the team

California State University, San Bernardino — IT Technician
January 2021 – January 2023

- Managed lab macOS endpoints with JAMF: imaging, configuration, software distribution, and lifecycle replacement
- Resolved incidents across OS issues, account permissions, peripheral failures, and software installs

PROJECTS

Takko Town English Guide — takkotaco.com

- Full-stack platform with real-time multiplayer games, GIS map of Takko, and ML face detection
- Cloudflare Workers + Durable Objects backend with WebSocket-based stateful game rooms

Bloggy Doggy — bloggydoggy.com

- Built edge-first blog with custom REST API on Cloudflare Workers and D1 for likes/quiz features
- Custom Web Components (no framework), multilingual i18n system supporting English/Simple English/Japanese

SKILLS

Cloud & Infrastructure: AWS, Cloudflare (Workers, Pages, D1, Durable Objects), Linux
